## **TGR LEARNING LAB**

### **SPRING 2018 MEMBER APPLICATION**

March 19 – May 2  
Application Deadline: **March 9, 2018**

Dear Prospective TGR Learning Lab Member,

This is your application to receive a scholarship to attend the TGR Learning Lab's seven-week Expanded Learning Program. There is a one-time \$5 fee for an identification card once accepted.

There are three steps in the application process. Please follow all directions and use the checklist below as you complete each step:

- Step 1: Select your course(s) and write a Personal Statement
- Step 2: Complete the Registration Form
- Step 3: Attach a copy of your most recent Report Card (quarter or semester)

Unfortunately, we do not have enough space to take every applicant. Therefore, it is very important that each section of this application be filled out neatly and completely. Incomplete applications will not be accepted. Please return the completed application to your school's designated location or mail to:

TGR Learning Lab  
One Tiger Woods Way  
Anaheim, CA 92801  
714.765.8000

Thank you. We hope to see you at the TGR Learning Lab.

#### **TGR LEARNING LAB MEMBER BENEFITS**

##### **ACADEMIC SUPPORT**

TGR Learning Lab Members have an opportunity to receive academic support in a core subject as well as college preparation support from TGR Learning Lab staff.

##### Hours

Monday – Thursday  
2:30 – 6:00 p.m.

##### **GOLF PROGRAM**

The TGR Learning Lab grounds include a 10-acre driving range and 18-hole putting course. Members have access to the driving range and can purchase balls for \$1 per bucket.

##### Hours

|                       |                  |
|-----------------------|------------------|
| Monday – Thursday     | Friday           |
| 2:30 – 6:00 p.m.      | 2:30 – 4:00 p.m. |
| Saturday              |                  |
| 9:00 a.m. – 4:00 p.m. |                  |

## **GRADES 7-8**

Monday/Wednesday

### **Forensic Files**

Do you enjoy mysteries and solving crimes? Are you interested in upholding the law or becoming a detective? Forensic Files will fascinate you with evidence, crime scene investigation and careers in the forensic science field. Dust off your fingerprinting skills and take the challenge of solving the crime of the century!

## **GRADES 7-12**

Monday/Wednesday

### **Event Promotion with Digital Media**

Do you enjoy taking photographs or editing short videos? Would you like to take these skills to help promote an event? In this course, you will learn Adobe Photoshop and video production to create digital media to help promote the TGR Learning Lab Family Night.

### **Golfology**

Ever wonder how the game of golf was created? What does the number on the bottom of a golf club mean? Have you ever made a golf ball fade? Get all your questions about golf answered in Golfology. This class will help you develop the skills necessary to play the game of golf. You will learn putting, chipping, pitching, bunker play and the full-swing using all the clubs in your bag.

### **Nutrition & Fitness**

Experiment with today's healthy choices to build up your muscles and brain power. Discover delicious eating habits that will energize your body and boost your mood. Conduct fascinating experiments using popular foods that will make your jaw drop in shock. Get your heart pumping through invigorating cardio and strength training exercises.

### **Sports Science**

Do you like to play sports? Have you ever wondered how your body moves and why you get injured when you do not train properly? This is a great opportunity to get a glimpse at what it takes to become a sports medicine doctor and see if working in the major leagues or for a local high school sports department is for you! Come and explore muscles and design them yourself to get an inside look at the structure and function of your body. Learn how to identify, treat and wrap sports injuries all while having a hands-on experience.

### **Video Game Design**

Ever wonder how the games you play are created? Travel through the world of video game design and create your very own 2D video game using Clickteam Fusion 2.5. Whether you are designing levels or developing sprite animations for your characters, you'll become familiar with the many unique elements in creating an exciting game. Explore several different careers in video game design and bring your creative ideas into the gaming arena.

## **GRADES 7-12**

Tuesday/Thursday

### **Mechanical Engineering**

Do you enjoy working with your hands and fixing broken things? If the answer is "YES!" then this is the class for you. Come and explore different engineering modules such as Engines, Forces and Applied Physics. You will also have a chance to apply all the scientific concepts gained from the modules to design, build and test your own CO<sub>2</sub> cars, mousetrap vehicles and solar cars. It's time to get those hands dirty.

### **Peak Performance**

Are you an aspiring golfer who wants to play high school or college golf? Maybe even play professional golf someday? This is the class for you! This advanced golf class will have you learning and trying new things so you can get to the top. You will be learning what it takes both mentally and physically in order to achieve your goals. You will see huge strides in your game through countless drills, exercises and expert analysis.

### **Story Telling with RPG Maker**

RPG Maker is a video game creation software that allows users to create story-based games similar to Undertale and old school Final Fantasy games. In this course, you will develop a story using RPG Maker and learn to code it into a video game you design.

### **Temples, Tombs & Treasures: Intro to Archaeology**

Come get your hands dirty and learn about the field of archaeology. Then use your detective skills and apply it to a mock dig. Learn how researchers reverse engineer ancient tools to find out how they were created and used. Discover what archaeology teaches us about our past and ourselves as well as explore careers in research, Cultural Resource Management, National Parks and museums.

### **Universal Science**

Science is all around us. Discover physical and life sciences in a fun, interactive environment. Catch bugs, classify and dissect organisms, make your own ice cream, play with dry ice and get your hands dirty with silly putty. You'll never look at science the same way again.

### **Wearable Electronics**

Are you ready to explore the world of engineering and design? Fashion is all around us and is something that we live in. What if you could design the next big thing in wearable electronics? What is "tinkering" and how does it relate to engineering and design? Participate in hands-on activities that allow you to explore tools and materials, take things apart and build unique, one-of-a-kind art that's part science and part technology.

## **Application**

At the TGR Learning Lab, we are focused on opening your mind to potential careers and college majors available to you. We ask that by applying, you understand this is a seven-week commitment to yourself and your future. Your next step is to select the courses you would like to participate in. While we cannot accommodate all requests, we will do our best to place you in one of your top choices. After selecting your courses, **please write a personal statement below about why you would like to attend the TGR Learning Lab.** The Expanded Learning Program runs Monday - Thursday from 2:30 p.m. - 6:00 p.m. Courses begin at 4:00 p.m. and end at 6:00 p.m. Parents will need to pick up their child from the TGR Learning Lab no later than 6:00 p.m. **\*Please note that incomplete applications will not be accepted.**

**Please indicate your top 5 course selections: (place a 1 - 5 on the line)**
